Requirements for wire control on forest games:

The wire guide must have a spout with a brass bushing as shown in the photo. The bushing **MUST** be intact, otherwise the wire guide must be replaced. All Novoleen wires are delivered on a plastic roll with a spliced eye, steel tubes and end hook.

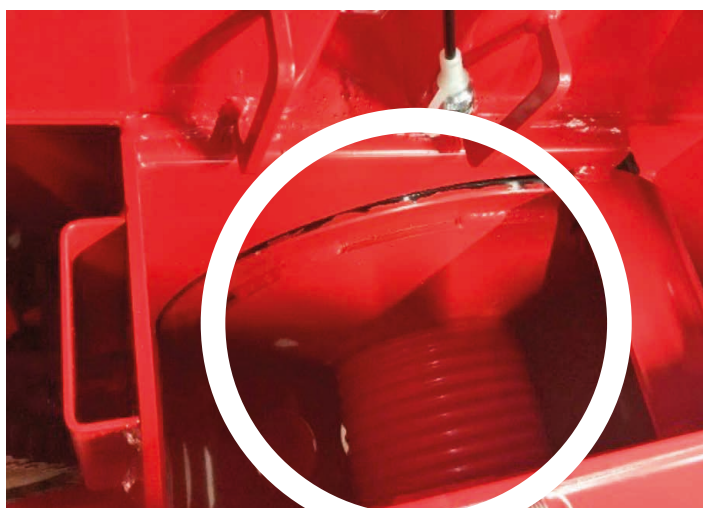

Part no.	Subject and description
1561	Sliding hook for wire for 9>13mm

1582	Glider for wire

Important information: Mounting of Novoleen cables on forest winch

Thoroughly clean the cable drum on all inside sides for welding spray, sharp edges and other impurities.

If the forest winch has previously run with steel cable, the drum will often be clean and ready for mounting the Novoleen.

Always switch to a cable guide with brass bushing on the winch before mounting Novoleen cable guide:

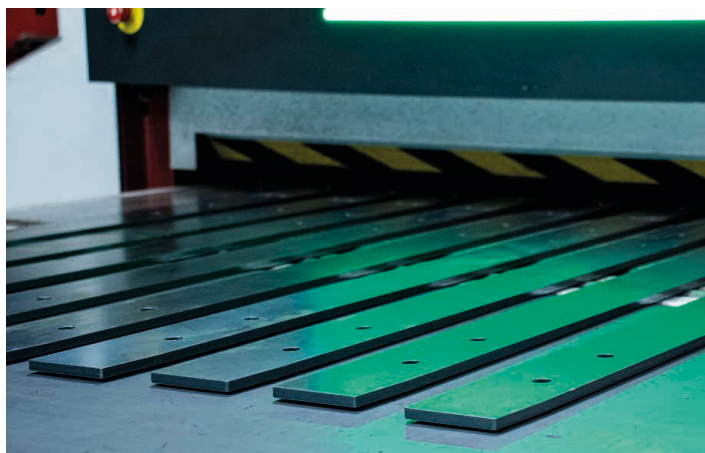

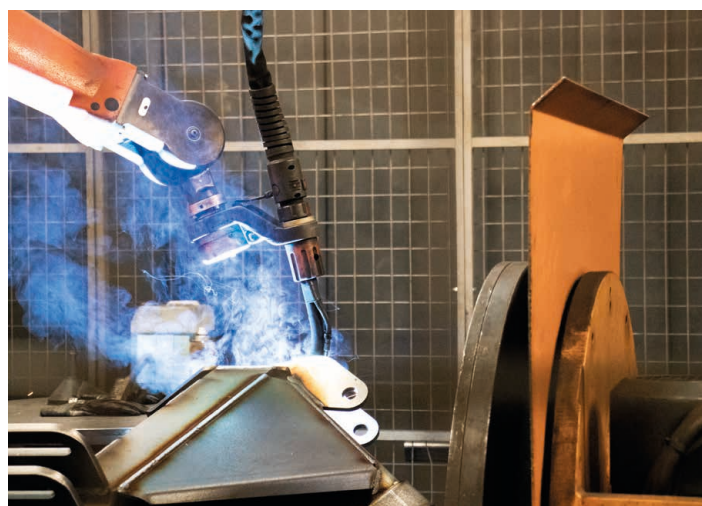

Part no.	Winch
